

Сайт https://www.reserved.com/ua/	
Type	Test
<i>Functional</i>	
Unit test	Add product to cart
Integration test	Go to the cart page and make sure that the product is added
System test	After adding the product to the cart, go to the checkout page; remove the product from the cart; change the quantity of the product in the basket
Acceptance test	Check technical requirements: After placing an order, the user receives a message about the order number on the personal account page
Alpha test	Reset to developers
Beta test	Available to users
<i>Non-functional</i>	
Performance	500+ users register simultaneously
User Interface	Check that all product images are loaded; elements are centered; and headings have the same font and size.
User Experience	Researched by users for ease of use
Localization	Check whether all the text on the pages is translated into English, as well as the quality of the translation.
Configuration	Check the functionality of the site on browsers: Safari, Mozilla Firefox, Opera, Chrome.
<i>Related to changes</i>	
Smoke test	Let's imagine a new feature - product comparison.
Regression test	Check the entrance to the personal account; place an order; receive a confirmation message and order number.
Re-testing	Check product category pages; adding the product to the wish list; product pages; filtering and sorting;
	Add 2+ products to the "comparison" page.
Security test	On the personal account login page: enter valid data in the "e-mail" field, and enter invalid data in the "password" field. Make sure that the login has not taken place.
Accessibility test	Site adaptation for people with disabilities: voice support
End-to-end testing	Register in your account; add a product from the "Sale" section to the cart; place an order; receive a confirmation message and order number
